# SGA CENTRALISED HANDICAPPING SYSTEM (CHS)

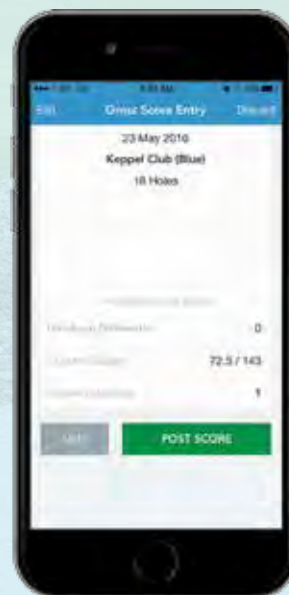

The development of the SGA Centralised Handicapping System (CHS) project proceeded at full steam this year and will be launched in August 2016. The CHS will provide a modern and unified platform for golf handicapping, changing the way golfers perform their handicapping activities and introducing consistency in calculation of golfers' Handicap Index. Golfers will be able to access their Handicap Index and post scores anywhere and anytime via multiple channels including web, their iOS or Android devices and their clubs' terminals. Golfers will also be able to carry out peer review to see fellow golfers' posted scores as soon as they have been posted to the system. These user friendly options will make posting scores and checking handicaps a breeze.
